

Mohammed Raafat

Front-End Engineer · React.js · React Native · TypeScript

Cairo, Egypt · +20 110 123 4258 · mohamedraafatqourany@gmail.com · [LinkedIn](#) · mohamedraafat.com

PROFESSIONAL SUMMARY

Front-End Engineer with 4+ years of experience building scalable, production-level web and mobile applications using React.js, React Native, and TypeScript. Proven track record leading full-cycle feature delivery, migrating legacy systems to modern React architectures, and integrating RESTful APIs at scale. Former Software Support Engineer background adds a strong product-oriented, business-first mindset. Active Upwork freelancer with Rising Talent badge and \$2,000+ in completed earnings. Open to full-time remote roles globally.

TECHNICAL SKILLS

Languages & Frameworks: React.js, React Native (Expo), TypeScript, JavaScript (ES6+), HTML5, CSS3

State & Data: RESTful APIs, Context API, React Query

Tools & Workflow: Git, GitHub, Postman, Chrome DevTools, Datadog, Jira, Agile / Scrum

Testing: Unit Testing, Integration Testing, Code Reviews

Backend (In Progress): Node.js, Express.js, NestJS, PostgreSQL, Supabase

Other: Figma, WordPress-to-React Migrations, Responsive Design, Performance Optimization

PROFESSIONAL EXPERIENCE

Software Front-End Engineer | [Breadfast](#)

Sep 2024 – Present

- Build and maintain scalable React.js applications across Supply Chain and Shopping App squads serving millions of users.
- Led front-end development of a Fintech Management System end-to-end — from planning through production — owning the full delivery lifecycle.
- Migrated legacy WordPress dashboards to modern React + TypeScript architecture, improving performance and maintainability.
- Integrated RESTful API endpoints to extend functionality and improve data flow across distributed systems.
- Collaborated with UX/UI designers to ship responsive, accessible, user-friendly interfaces across web and mobile.
- Drove code quality via unit/integration testing, code reviews, and active participation in sprint ceremonies.

Senior Software Support Engineer / Front-End Intern | [Breadfast](#)

Feb 2024 – Sep 2024

- Acted as team technical lead and delegate for direct manager; mentored and onboarded newly hired support engineers.
- Built a React.js internal dashboard that resolved a recurring critical operational issue, eliminating daily manual intervention.
- Developed troubleshooting guides and knowledge-base articles, significantly improving customer self-service resolution rates.
- Reduced customer complaint volume by implementing proactive support measures and cross-functional bug triage.

Software Support Engineer | [Breadfast](#)

Oct 2022 – Feb 2024

- Reduced critical bug count by 15% through systematic cross-functional collaboration on bug identification and prioritization.
- Improved team efficiency by 50% by co-developing new troubleshooting methodologies with engineering teams.
- Decreased support ticket volume by 50% through proactive documentation and knowledge-base initiatives.
- Conducted technical training sessions for newly hired support engineers, accelerating onboarding time.

Freelance Front-End Developer | Upwork

Oct 2023 – Present

- Earned Upwork Rising Talent badge with \$2,000+ in completed project earnings across global clients.
- Delivered custom React.js web applications, landing pages, e-commerce platforms, and dynamic dashboards.
- Integrated third-party APIs and back-end services with a focus on responsive design and performance.

Customer Experience Specialist | Breadfast

Dec 2021 – Oct 2022

- Handled customer inquiries, fraud investigations, and quality assurance escalations across branch and quality teams.

CX & Operations Specialist | MRSOOL

Sep 2021 – Jan 2022

- Monitored live operations to ensure excellent user experience; investigated fraud and troubled orders.

Technical Support Specialist | Vodafone

Jul 2020 – Sep 2021

- Provided technical support for internet/network products; configured CPE, Static IP, and network components.
- Escalated complex tickets and maintained high CSAT through timely follow-ups.

EDUCATION

Bachelor's Degree, Management Information Systems · Modern Academy Maadi

CERTIFICATIONS

- Programming With JavaScript – Meta / Coursera
- Front-End Development with React.js
- Mastering TypeScript – 2024 Edition (Colt Steele)
