PROFESSIONAL EXPERIENCE

Software Front-End Engineer | Breadfast Sep 2024 – Present · Cairo, Egypt

- Develop and maintain scalable React.js applications using modern JavaScript frameworks in an Agile environment across Supply Chain and Shopping App squads.
- Led front-end development of a Fintech Management System end-to-end, from planning and architecture to production deployment.
- Migrated legacy WordPress dashboards to React.js with modern architecture and redesigned business logic, reducing technical debt significantly.
- Integrated RESTful APIs to power real-time data features across multiple product areas.
- Utilized TypeScript throughout codebases to enforce type safety and improve long-term maintainability.
- Performed unit and integration testing, conducted code reviews, and participated in sprint planning, grooming, and brainstorming sessions.
- Collaborated closely with UX/UI designers to implement pixel-perfect, responsive interfaces.

Senior Software Support Engineer / Front-End Intern | Breadfast Feb 2024 – Sep 2024 · Cairo, Egypt

- Developed a React.js internal dashboard that resolved a recurring daily critical operational issue, eliminating manual workarounds.
- Acted as team expert and delegate of the direct manager, leading resolution of escalated software issues.
- Designed and conducted onboarding training sessions for newly hired support engineers.
- Implemented proactive knowledge base articles and troubleshooting guides to improve customer self-service.

Software Support Engineer | Breadfast Oct 2022 – Feb 2024 · Cairo, Egypt

- Collaborated with cross-functional teams to develop and implement troubleshooting methodologies, improving operational efficiency by 50%.
- Reduced support ticket volume by 50% through proactive knowledge base development and self-service tools.
- Contributed to a 15% reduction in critical bugs by collaborating on bug identification and prioritization.

Freelance Front-End Developer | Upwork Oct 2023 – Present · Remote (Worldwide)

- Achieved Rising Talent badge with \$2,000+ in earnings, delivering projects for international clients across multiple industries.
- Built custom React.js applications including e-commerce platforms, corporate websites, landing pages, and dynamic dashboards.
- Focused on performance optimization, responsive design, and seamless third-party API integrations.
